Role clarity and support

Purpose and direction

An employee has role clarity when they understand their goals, how to achieve these goals, and how the goals link to broader strategy.

Employees also need the right support to deliver what is expected in their role such as time to do their job well, tools and technology, and training.

Mobility is regarded as one of the best ways to develop leadership capability, provide enriching careers, and build and retain ‘know how’ in an organisation and the NSW public sector more broadly.

Decision making and accountability

Leadership

Decision making is the process of making choices by identifying a decision, gathering information, and assessing alternative resolutions.

Accountability is one of the four core NSW public sector values. It is about taking responsibility for decisions and actions. Accountability can add meaning to work and foster engagement.

Action on survey results

Leadership

To improve employee experience, leaders at all levels should take on board employee feedback and act on the survey results.

Employees can become disengaged if they are asked their opinion and then no action takes place as a result.

Intention to stay

Intention to stay refers to an employee’s desire and willingness to remain with their current organisation. Intention to stay can be influenced by many aspects of employee experience, including engagement.

Intention to stay is a leading indicator for turnover. However, intention doesn’t always translate into action.

Additional information about the survey

Discover more about how the survey works and how to act on results

Survey model

The People Matter Employee Survey provides an important opportunity for more than 400,000 people to have a say about their workplace and to help make the public sector a better place to work.

The survey asks employees about their experiences with their work, workgroup, managers, and organisation. Their experiences are grouped into management practices and reported under 4 domains:

- Purpose and direction
- Work environment
- Enabling practices
- Leadership

All of these practices positively contribute towards employee and organisational outcomes, including employee engagement, job satisfaction, wellbeing, and customer service.

Interpretation guide

Privacy

Responses from individual employees are confidential. Strict rules protect privacy at every stage of the survey process. These reports only show the results for a group of employees (i.e. a workgroup or demographic group) when there are 10 or more responses for the group.

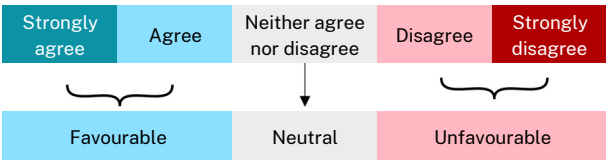

Headline Results – Key topics

Due to changes in the survey questions some topics do not have a comparison to the previous year. Where a comparison is available, the change is displayed in the box.

To improve clarity, survey questions that previously sat under multiple topics have now been assigned to a single, most relevant thematic topic. As a result, previous years' topic scores have been recalculated and may differ slightly from past reports.

% favourable calculation

Most scores are shown as % favourable, which is the sum of the 'strongly agree' and 'agree' percentages.

% favourable scores are colour coded based on these ranges:

Rounding

Results are presented as whole numbers for ease of reading. Values are rounded down if their first decimal number is less than 5. Values are rounded up if their first decimal number is equal to or greater than 5. Due to rounding, results will not always add up to 100%. Difference scores may appear to be slightly different to values derived from subtracting rounded numbers, usually within 1%.

Methodology - Burnout questions (disagree)

Burnout (disagree) questions are reported using a 5-point Likert scale from 'strongly disagree' to 'strongly agree'. For negatively framed questions, lower scores ('strongly disagree' and 'disagree') indicate more favourable responses (less burnout), while higher scores ('agree' and 'strongly agree') indicate less favourable scores (more burnout). To interpret the results, the further responses are towards 'strongly disagree', the less burnout is reported; the further towards 'strongly agree', the more burnout is reported.

Employee engagement score calculation

Each person who answered all five employee engagement questions gets an employee engagement score. Each answer is assigned a score as follows:

- 100 to 'strongly agree'
- 75 to 'agree'
- 50 to 'neither agree nor disagree'
- 25 to 'disagree'
- 0 to 'strongly disagree'

The employee's engagement score is calculated as the average of the 5 question scores. Employees' scores are then averaged to calculate a team or organisation engagement score.

Difference scores

Difference scores are displayed as a percentage point where available. Differences are colour coded based on these ranges:

A '-' represents there is no applicable comparison available.

Sector: The NSW public sector as a whole, including all NSW Government employees who participated in the survey.

Portfolio: NSW Government departments and organisations are grouped into 12 portfolios. See cover page for details.

Interpretation guide

Key driver analysis

Key drivers are split into strengths (high correlation, high score) and priorities (high correlation, low score). We recommend looking for ways to maintain your strengths and improve your priority areas.

Experience tells us that a successful response to survey results requires focus on key priorities. The key driver analysis, which uses statistical techniques including Pearson’s correlation analysis, identifies individual questions with the strongest influence on your employee engagement score.

Metro and Regional

The survey collects suburb and postcode data which is mapped to the Statistical Areas 4 (SA4) geographical from the Australian Bureau of Statistics (ABS) geographical framework. They are the largest sub-state regions in the Australian Statistical Geography Standard.

Metro includes all Sydney SA4s and is divided into Sydney East and Sydney West.

Sydney East includes Sydney - City and Inner South, Sydney - Eastern Suburbs, Sydney - Inner South West, Sydney - Inner West, Sydney - North Sydney and Hornsby, Sydney - Northern Beaches, Sydney - Ryde and Sydney - Sutherland SA4s.

Sydney West includes Sydney – Baulkham Hills and Hawkesbury, Sydney – Blacktown, Sydney – Outer South West, Sydney – Outer West and Blue Mountains, Sydney – Parramatta and Sydney – South West SA4s.

Regional includes Capital Region; Central Coast; Central West; Coffs Harbour– Grafton, Far West and Orana; Hunter Valley excluding Newcastle; Illawarra; Mid North Coast; Murray; New England and North West; Newcastle and Lake Macquarie; Richmond – Tweed; Riverina; and Southern Highlands and Shoalhaven SA4s.

Frontline and Non-frontline

Frontline roles are those where employees spend at least 70% of their time delivering services directly to members of the public. In the PMES, frontline and non-frontline status is determined by responses to the question: "Which of the following best describes the work you do?"

Frontline is defined as ‘Service delivery involving direct contact with the public (e.g., teaching, nursing, policing, shopfront / counter service, train driver, customer service)’.

Non-frontline includes all other types of work:

- Other service delivery work (work that does not involve contact with the public, but it is critical to the delivery of a service, e.g., maintenance, technical support catering, cleaning, laundry)
- Administrative support (e.g., executive / personal assistant, receptionist)
- Corporate services (e.g., HR, finance, IT, ministerial or parliamentary processes)
- Policy
- Research
- Program and project management support
- Legal (including developing and/or reviewing legislation) or
- Other

Caring responsibilities

These are employees who selected at least one of the below options from the question; 'Do you have caring responsibilities outside of work?'

- Yes, for a child

Action planning

We are all responsible for building a world class public service. Improving employee experience is one way to work towards this goal.

Survey communication and action planning: Leaders are encouraged to share and discuss survey results with employees, and start thinking about actions using the template below. In addition to PMES results, you should consider work context and internal business data (e.g. turnover data). You should implement and monitor your plan, either on its own or as part of a broader organisational improvement strategy.

 CELEBRATE	 INVESTIGATE FURTHER WITH OUR TEAMS	 OPPORTUNITIES
The things we do well: Think about how we can build on our strengths and learn from what we are good at.	Are there any other opportunities coming out of the results that we want to explore further? How could we investigate? Through looking at the data in in more detail or through discussions with staff?	Areas we need to focus on and turn into action plans: What are the key things we need to improve to make working here better?
